

Aastha Ojha

Lead Software Engineer

Bengaluru, India

asthaojha0105@gmail.com | +91-7055779297 | [LinkedIn](#)

PROFILE

Results-driven Lead Software Engineer with extensive experience designing and delivering scalable, distributed systems for financial, security, and data-driven applications. Proven leader with a track record of driving innovation, mentoring teams, and leveraging modern cloud and DevOps technologies (AWS, Kafka, Terraform) to deliver high-impact solutions.

EXPERIENCE

Lead Software Engineer, EPAM Systems, Bengaluru

May 2022 – Present

- Designed and developed scalable, distributed systems for bulk data processing using AWS Services.
- Led the re-architecture of a legacy financial application, overseeing both frontend (React) and backend (Java) development.
- Integrated Apache Kafka for real-time data streaming and processing.
- Led a team of 4–5 developers, overseeing code reviews, design discussions, and production releases.
- Upgraded MySQL 5.7 to 8.0 using Infrastructure as Code (Terraform).
- CI/CD pipelines with Jenkins, Docker, SonarQube, Datadog and Semgrep.
- Provided L3 support, critical bug fixes, and on-call production support.

Lead Software Engineer, Persistent Systems, Bengaluru

Nov 2020 – May 2022

- Architected and integrated distributed data pipelines handling petabytes of data from multiple warehouses using AWS S3, DynamoDB, and Snowflake.
- Implemented real-time and batch data processing with Avro event files and Kafka.
- Developed a data visualization UI from scratch.
- Automated data parity checks and checkpointing.

Software Engineer, Manhattan Associates, Bengaluru

Jul 2019 – May 2020

- Enhanced allocation, replenishment, and inventory features in WMOS (Warehouse Management Operating System).
- Fixed critical defects in client environments.

Software Engineer, Nagravision, Kudelski Security, Bengaluru

Jun 2018 – Jun 2019

- Developed REST APIs and internal UI for IoT security lifecycle management.
- Utilized ReactJS, HTML, CSS, Bootstrap, SOAP UI, and JUnit.

Software Engineer, Kerv Digital, Bengaluru

Sep 2017 – Jun 2018

SKILLS

- **Languages:** Java (8/11/17), JavaScript, JSON, AJAX, HTML, CSS, Bootstrap
- **Frameworks:** Spring, Spring Boot, Mockito
- **Distributed Systems:** Apache Kafka, RabbitMQ
- **Databases:** Oracle, MySQL, Snowflake, DynamoDB
- **Cloud & DevOps:** AWS (EC2, S3, Lambda, RDS, DynamoDB, ECS, CloudWatch, Secret Manager, Route 53, ECR, CodeBuild, CodePipeline, AMI Upgrade, Certificates), Docker, Jenkins, Terraform
- **Monitoring & Tools:** Kibana, Postman, Swagger, Confluence, Tidal, Eclipse, SoapUI, JMeter, Microsoft CRM, SonarQube, Semgrep
- **Version Control:** GitLab, Bitbucket

EDUCATION

- B.Tech, Computer Science, College of Engineering Roorkee, India (2017): **78%**
- Intermediate, Science, Maa Bharti T.T. College, Kota, India (2013): **89.6%**
- High School, SOS Hermann Gmeiner College, Bhimtal, India (2010): **93.5%**

AWARDS

- EPAM Systems: Spot Bonus Award (twice) for exceeding expectations
- EPAM Systems: Pat on the Back Award
- Manhattan Associates: Bug-Smash Prize
